

Call For Presentations Guidelines

- Presented on 20 April 2013 during Session I or II.
- All student and faculty who wish to contribute may present on any reasonable topic.
- Presentation must be 15 minutes in length with 3 minutes for questions included
- Students are encouraged to present summaries of undergraduate research projects, summer internships, senior design projects, as well as graduate student thesis or dissertation research.
- Technical papers from physics faculty and staff are also welcome that address best teaching practices, physics education research, lab techniques, pedagogical studies, and all varieties of topical physics research.
- Computer projectors will be provided in presentation room. A laptop will be available, but all presenters are strongly encouraged to bring their own laptops to avoid hardware and software formatting difficulties, as well as audio and video streaming problems.
- All presentations must submit an electronic Abstract by 12 April 2013 to include:
 - 1) Title (Limited to 10 words)
 - 2) Presenter's full name
 - 3) Presenter's Institution or business
 - 4) Presenters complete mailing address
 - 5) Presenter's phone number
 - 6) Presenter's Email address
 - 7) Abstract (summary of presentation in 150 words or less)

Call For Signature Demo/Lab Guidelines

- Each attendee may present 2 favorite signature Physics Demo/Labs after session I.
- Demo/Labs should demonstrate/clarify Physics concepts and excite student learning.
- Demo or Lab Setup will take place from 7:30-8:30 during registration time.
- Demo/Lab voting will be done by attendees for prizes awarded later in the conference.
- Demo / Labs must have an electronic summary sent electronically by 12 April 2013. (See attached Demo Lab summary) These completed summaries will be available to all conference attendees.
